CycleTwin architecture · local synthetic demo

Synthetic streams

Cycles · wearables · CGM fixture

→

Patient split

Train · validation · held-out test

→

Twin + tiered forecast

Shared zIR demo; score uses period · RHR · temp

→

Safety + dashboard

Abstain · conformal · alert log

Twin preview is separate and uncalibrated; not implemented/evaluated: EHR · E2 results · true counterfactuals · robustness

Synthetic-only decision-support research prototype. Not for diagnosis, contraception or conception planning.
